How Do I Apply for a Home Care Package

To receive a government subsidised package, you will need to be assessed by the Aged Care Assessment Service (ACAS). This assessment is FREE.

Referrals to ACAS are accepted direct from those needing the service or someone on your behalf eg. family, friends, general practitioners.

Case Management

When you receive a Home Care package you will be assigned a qualified Case Manager. Your Case Manager will, in consultation with you, develop and implement a service plan that will best meet your individual needs and requirements. This plan will continue to be monitored and changed as necessary.
